Multiple Car Burglaries Reported to Police

On Friday June 7th Sugar Grove Police took reports from five residents in the Windsor Pointe subdivision who stated that their vehicles had been entered. The first report came in at 2:05 am. Victims reported that electronics including computers, cell phones, mp3 players and cash were taken. Most victims stated that they had locked their vehicles. One victim told police that he observed two individuals wearing dark clothing that were in the area at the time the incident occurred. They were said to have fled on foot when the victim yelled at them.

It is not unusual for these types of incidents to occur at this time of the year. Residents are cautioned to remove anything of value and to keep their vehicles locked. These are considered crimes of opportunity that can be easily avoided by taking a few steps to secure your vehicles and property.

Anyone with information that may help the police are asked to call Sugar Grove Police Investigations at 630-466-4526 ext. 37
