
**VILLAGE OF SUGAR GROVE
BOARD REPORT**

TO: VILLAGE PRESIDENT & BOARD OF TRUSTEES
FROM: ANTHONY SPECIALE, DIRECTOR OF PUBLIC WORKS
BRAD MERKEL, DEPUTY DIRECTOR OF PUBLIC WORKS
SUBJECT: DISCUSSION: MALLARD POINT DRAINAGE
AGENDA: FEBRUARY 18, 2020 REGULAR BOARD MEETING
DATE: FEBRUARY 14, 2020

ISSUE

A representative from Trotter and Associates will present an update on the status of the Mallard Point Drainage investigation.

DISCUSSION

At their January 21, 2020 Meeting the Board directed Staff to contact the homeowners that are reported to be experiencing ground water issues to document current sump pump run times. This effort is the next step in the process of evaluating the concerns raised by residents on the west side of Brookhaven Circle that back up to the Ogle Farm.

The data collection stage is expected to be followed by Staff and Trotter exploring options to decrease the run times, such as the installation of a gravity drainage system that would connect to the footing drains in impacted houses.

Scott Trotter and Staff will provide the Board an update of the inspection progress.

COST

Costs associated with this report are undetermined at this time. A gravity drainage system is estimated at \$500,000 - \$600,000. The cost is unbudgeted.

RECOMMENDATION

The Village Board direct staff to complete the Mallard Point Drainage System data collection phase and present options to address documented issues at an upcoming Board meeting.
